

Dear Hiring Manager,

In an ever-changing world where business, media, information and technology meets together; having a versatile employee who can adapt to a multi-tasking environment is of great value. With the various skills and experience I possess, I would like to offer my services to your company.

Being a self-motivated, self-taught enthusiast of various technologies has allowed me to fit into this "multi-tasking" work environment and bring growth.

Since software came into being, I have taught myself how to do and use graphics, multimedia, web design, programming and reporting.

With over twenty years of graphic design, seven plus years of web and multimedia design; my design experience can produce clean professional results that can help your overall presentation.

Another aspect of my talent is also displayed in my managing and professional skills that also includes marketing, branding and sales.

I am looking to align myself with a well established company that offers potential for career advancements. Thank you for your consideration and I look forward to meeting you.

Sincerely,

Frank Hilton
207-375-5118
